

Massachusetts Childcare/Preschool Immunization Survey Results 2016-2017

The Massachusetts Department of Public Health Immunization Program is pleased to make available the 2016-2017 Massachusetts childcare/preschool immunization survey results by program. Please be aware that the data are limited in a number of ways, including those listed below.

- All data are self-reported by the childcare/preschools and discrepancies may exist. The Immunization Program continues to work with programs to resolve discrepancies and update immunization data, when possible.
- Data collected by the Immunization Program are only for children 2 years of age and older.
- Data release standards do not allow for data to be shared for programs with fewer than 30 reported children. Programs that submitted a survey and reported fewer than 30 children are indicated (+).
- Not all programs return their survey. Programs without data due to non-response are indicated (*).
- Some programs returned surveys, however those surveys contained discrepancies leading to mathematically impossible rates. When possible, we work with programs to resolve data discrepancies. Programs where rates were withheld due to unresolved discrepancies are indicated (¶).
- Data are primarily collected in the fall, but immunization data are often updated throughout the year and rates (during the same school year) may be higher than reported due to additional children receiving immunizations or bringing records to school. Programs were given the opportunity to submit updated numbers from their initial survey in the fall. Also, the childcare/preschool population is dynamic and as children arrive and leave programs, the immunization rates are impacted.
- Children are allowed a medical or religious exemption to one or more vaccines.
- Children without the required number of doses of vaccine do not necessarily have an exemption on file.
- Children without a record of vaccination, but with serologic proof of immunity to certain diseases (measles, mumps, rubella, hepatitis b and varicella), meet childcare/preschool entry requirements, but may not be counted as vaccinated.

Data definitions:

*	Program did not respond to survey
+	Program returned survey and reported fewer than 30 total students, so data cannot be released
¶	Program returned survey however, due to data discrepancies, rates are not available at this time
4 DTaP	4 doses of DTaP (diphtheria, tetanus and pertussis) vaccine
3 Polio	3 doses of polio vaccine

1 MMR	1 dose of MMR (measles, mumps and rubella) vaccine
3 Hib	3 or more doses of <i>Haemophilus influenzae</i> type b vaccine
3 Hep B	3 doses of hepatitis B vaccine
1 Varicella	1 dose of varicella vaccine. Children with a reliable history of chickenpox disease are also included in this category.
Series	4 DTaP + 3 Polio + 1 MMR
Exemption	Medical and religious exemptions combined
Unimmunized	Children with an exemption that have no documented vaccines
No Record	Children reported as not having an immunization record on file

Data Definitions:

*	Indicates program did not respond to the survey
†	Indicates program reported fewer than 30 total children so data cannot be released
¶	Indicates program returned survey however, due to data discrepancies, immunization and exemption rates are not available at this time
4 DTaP	4 or more doses of DTaP (diphtheria, tetanus and pertussis) vaccine
3 Polio	3 or more doses of polio vaccine
1 MMR	1 or more doses of MMR (measles, mumps and rubella) vaccine
3 Hib	3 or more doses of <i>Haemophilus influenzae</i> type b vaccine
3 Hep B	3 doses of hepatitis B vaccine
1 Varicella	1 or more doses of varicella vaccine or a reliable history of chickenpox disease
4-3-1 Series	4 DTaP + 3 Polio + 1 MMR
Exemption	Medical and religious exemptions combined
Unimmunized	Children with an exemption that have no documented vaccines

*Program did not respond to the survey

†Program reported fewer than 30 students, so data cannot be released

¶Program returned survey however, due to data discrepancies, immunization and exemption rates are not available

Rates for vaccines are rounded to the nearest percentage and may slightly under- or overestimate true immunization rates

Series: 4 DTaP + 3 Polio + 1 MMR

Exemption data represents medical and religious exemptions combined

Massachusetts Childcare/Preschool Immunization Survey Results 2016-2017

Program Name	Licensors	City	County	4 DTaP	3 Polio	1 MMR	3 Hib	3 HepB	1 Varicella	4-3-1 Series	Exemption	Un-immunized	No Record
No Record Children reported as not having an immunization record on file													

Notes

- All data are self-reported by programs and discrepancies may exist. The Immunization Program continues to work with programs to resolve discrepancies and update immunization data, when possible.
- Not all programs return their survey. Programs without data due to non-response are indicated (*).
- Some programs returned surveys, however those surveys contained discrepancies leading to mathematically impossible rates. When possible, we work with programs to resolve data discrepancies. Programs where rates were withheld due to unresolved discrepancies are indicated (¶).
- Data are primarily collected in the fall, but immunization data are often updated throughout the year and rates (during the same school year) may be higher than reported due to additional children receiving immunizations or bringing records to school. Programs were given the opportunity to submit updated numbers from their initial survey. Also, the childcare/preschool population is dynamic and as children arrive and leave programs, the immunization rates are impacted.
- Children are allowed a medical or religious exemption to one or more vaccines.
- Children without the required number of doses of vaccine do not necessarily have an exemption on file.
- Children without a record of vaccination, but with serologic proof of immunity to certain diseases (measles, mumps, rubella, hepatitis b and varicella), meet childcare/preschool entry requirements, and may be counted as vaccinated.
- Rates for vaccines are rounded to the nearest percentage point and may slightly under- or overestimate true immunization rates.
- Programs with fewer than 30 students may have data discrepancies not noted here.

*Program did not respond to the survey

†Program reported fewer than 30 students, so data cannot be released

¶Program returned survey however, due to data discrepancies, immunization and exemption rates are not available

Rates for vaccines are rounded to the nearest percentage and may slightly under- or overestimate true immunization rates
